Dear BMS Families:

Yesterday, we learned that one of our secondary teachers tested positive for COVID-19. This teacher has been out for a number of days already and is currently home on continued quarantine until the middle of next week. The PA Department of Health was promptly notified and will complete necessary contact tracing with this teacher. At this time, there are no required student or staff quarantines underway as a result of potential exposure dating back to last week.

Thank you,

Nicholas J. Wilson  
Superintendent  
Secondary Principal  
Belleville Mennonite School
