

Dear BMS Families,

We are happy to share with you that the board has approved no increase in tuition for next school year! While we have gone through many challenging times during this trying season - learning, adapting, praying, and growing alongside all of you, we are presently in a financial position to be able to maintain current tuition rates for the 2021-2022 school year.

Previously, we have made small increases to our rates to adjust for financial needs; however, with the ongoing support of and partnerships with our many families and generous donors, we feel as an administration and board that we can stay the course and keep our rates where they are - as a nod of appreciation and goodwill for faithfulness and trust in BMS.

That being said, please be aware that we are working diligently and creatively as we prioritize goals and forward planning steps to continue boosting our enrollment and financial sustainability. You play a crucial part in sharing with friends and family what you love about this special place that I am passionate about and proud of, as I look forward to my own children coming here. Please continue supporting us as you are able - in prayer, service through volunteering, and financially as you are led... Thank you for your loyalty and vital role you play in your child's life and development here at BMS!

Humbly yours in Christ,

Nicholas J. Wilson

Superintendent  
Secondary Principal  
Belleville Mennonite School
